

Quantum Hi Tech launches USB 2.0

How wonderful it would be to plug in many devices to your system at a time and manage all!

QHMP, India's leading frontrunner in consumer electronics & high-quality IT peripherals, under the brand 'Quantum Hi-Tech' with its unfailing commitment to highest standards of quality at most affordable prices

introduces its 4 port USB HUB only at Rs. 250/- that allows you to extend USB Capabilities of your PC and get additional utility, maximizing the efficiency, ensuring safe data transmission along with convenient access.

Compact, Portable and easy to use USB HUB chains (supports) upto 127 devices at one go & is also backward compatible to USB 1.0 devices. The hot-swapping feature allows you to connect or disconnect devices without powering down your system. Accompanied with 480Mbps speed (Depending on the device), this device allows for an easy transfer of high-definition content such as movies, photos and music, suiting diverse needs.

Additionally, the USB HUB is compatible with low speed, high speed and full speed signaling rates. It has one USB Mini B type female input connector and features Standard A type up to 100mA current per port. The ergonomically designed USB HUB supports Windows 10, 98, 2000, ME, XP, Mac OS 8.6 and several other devices.

Keeping safety in mind, the USB HUB also provides over current protection with Individual mode (port) power switching, which turns the power off to downstream its devices.

Aided with LED Indicator, the newly launched USB Hub is available with piano shiny finish in Marble white and Dark Black and shall be available at the leading retail stores and ecommerce portals.
