

Quantum HiTech: AHM6200 USB 2.1 Mini Wonder Speaker

Quantum Hi-Tech (QHIMPL) latest USB Powered 2.1 Speakers - QHM 6200 Mini Wonder USB Speakers provide premium sound quality while maintaining a stylish & space-saving industrial design. Premium on design and relegating the old, boxy pair of speakers QHM6200 brings in a fresh start on your stations. An ultra-portable audio device, the 2.1 Mini Wonder speakers comes with a dual-channel stereo and full range enhanced speaker which draw power from the PC/ notebooks through USB port, ensuring maximum energy efficiency with minimal wastage. The system is a powered 2.1-channel speaker set, with two satellite speakers and a subwoofer. The speaker system features an inbuilt amplifier to deliver brilliant sounds. Delivering immersive, full spectrum sound, the Speakers anchors an amazing listening experience accompanied with an ear-pulsing bass in a compact form.
