

COMFY KEYBOARD

If you like to carry your keyboard with you when you travel to use with a tablet – or even if you like one which occupies minimum space on your desk, you might consider this comfortable yet affordable Mini USB Keyboard option. Called the Quantum HiTech QHM 7307, from QHMPL, it has 78 chocolate-shaped keys that are ergonomically designed to reduce typing stress. It also has 10 multimedia hot keys (function keys doing double duty) that provide shortcuts to the machine's multi-media functions. The keyboard even comes with a water-resistant membrane to prevent damage from that spilt coffee! Compatible with all current versions of Windows, it is priced at ₹325.
